724 Access

724 Access is the data back-up system for PowerChart /FirstNet during Network downtimes.
724 Access has a maximum delay of 2 minutes, so data prior to the start of Downtime is fairly current.
Some 724 features include:

- Looks somewhat like PowerChart (basic organization)
- Data pulls back **7 days**
- Documents include Physician, Radiology, EKG reports (no images), etc.
  - No long focus notes, or scanned documents available
- Medications in MAR format
- Current Orders
- Past vaccine information

*724 Access computers should be plugged in "Red Plugs" and kept turned on at all times (re-boot daily).
