Chief Medical Officer
Munson Healthcare

Current Data: COVID-19 in Northern Michigan

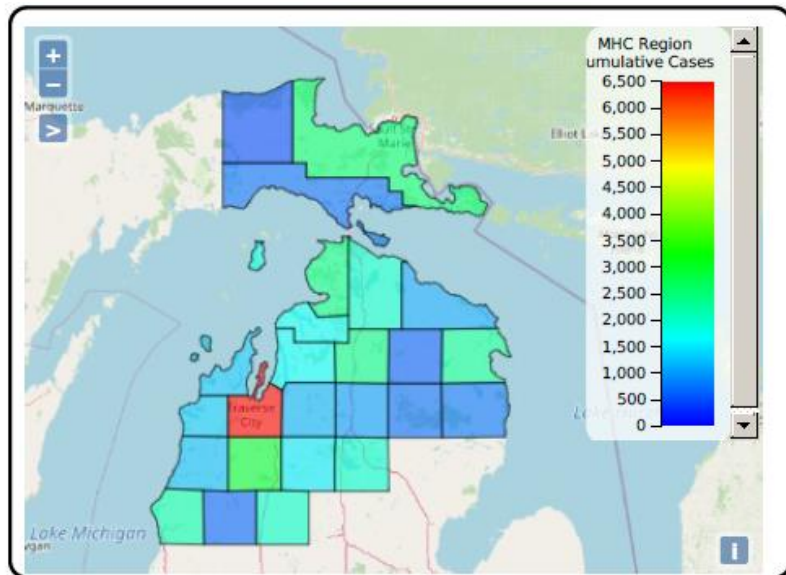

MHC Region	Cumulative Cases 42,472	Increase 6
MHC Regions	CUMULATIVE CASES 42,472	CUMULATIVE DEATHS 836
State of Michigan	1,000,375	21,008
USA	33,317,803	599,089
Global	181,521,067	3,937,437

MHC Region Breakout	CUMULATIVE CASES	CUMULATIVE DEATHS	DAILY CASES*	DAILY DEATHS*
Confirmed	34,878	772	3	0
Probable	7,594	64	3	0
TOTAL	42,472	836	6	0

*Weekend State daily volume may be combined for Saturday and Sunday

MHC Region Diagnostic Tests	POSITIVE	NEGATIVE	TOTAL	% POSITIVE
YTD	34,967	506,197	541,164	6.5%
14 Day Avg	6	674	680	0.9%
7/1/2021	10	892	902	1.1%

MHC Cases Per 100,000 People	CUMULATIVE	LAST 14 DAYS
Confirmed	5,986	13
Probable	1,303	2
TOTAL	7,290	15

Current Data: COVID-19 Inpatients at Munson Healthcare

COVID-19 Incident Command System Summary

Updated: 07/06/2021

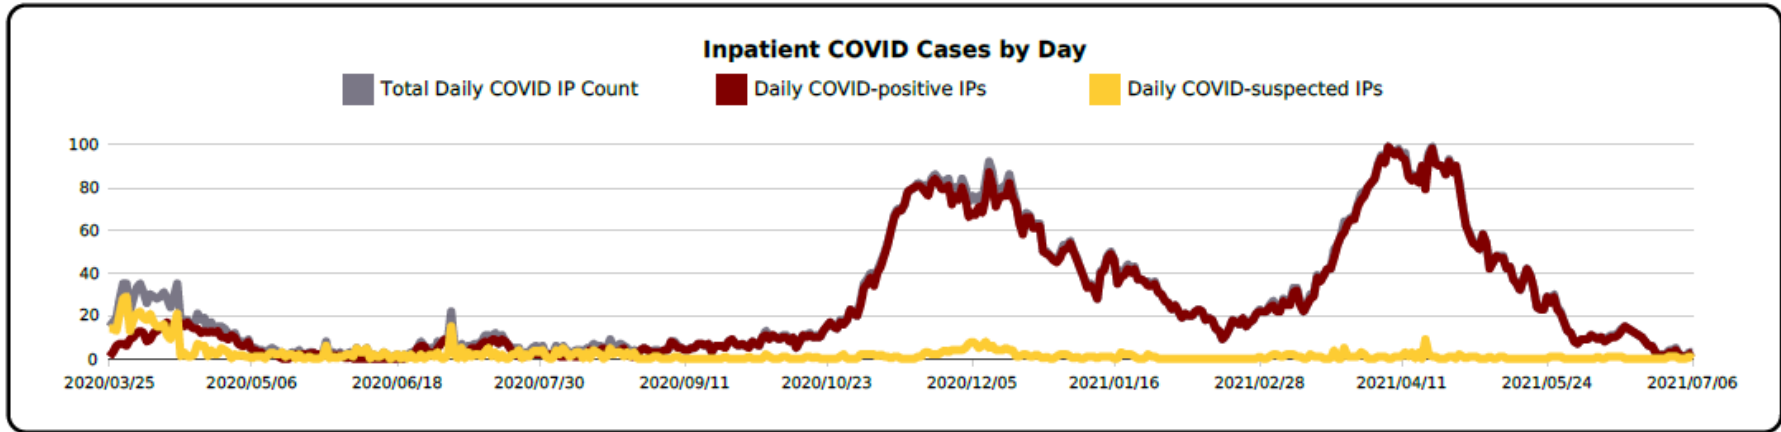

ENTITY NAME	DAILY COVID-POSITIVE IPs	DAILY COVID-SUSPECTED IPs	YTD PATIENT DEATHS
System Totals	3	0	258
KMHC			
MHC Cadillac	0	0	32
MHC Charlevoix	0	0	3
MHC Grayling	2	0	43
MHC Manistee	0	0	7
MHC MMC	1	0	169
MHC OMH	0	0	4
MHC POMH			

Counts are based on midnight census

Inpatients are those COVID-19 patients requiring hospitalization.

MHC Hospitalization Trends

Updated: 07/06/2021

COVID-19 Vaccine Distribution

Munson Healthcare

has provided more than

86,000

doses of vaccine through 

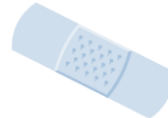

Mass Vaccination Clinics

Family Doctors

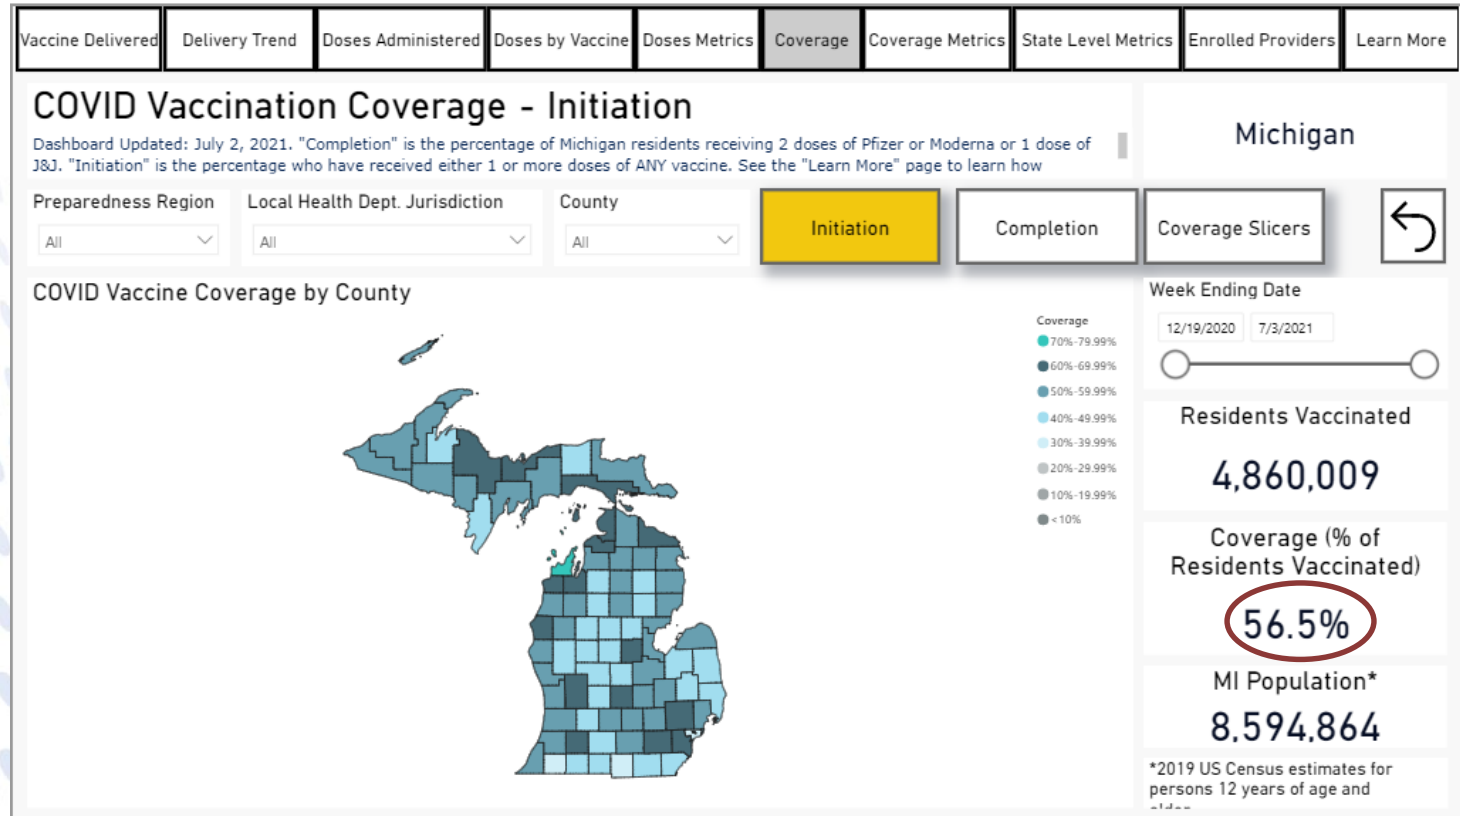

Local Health Departments

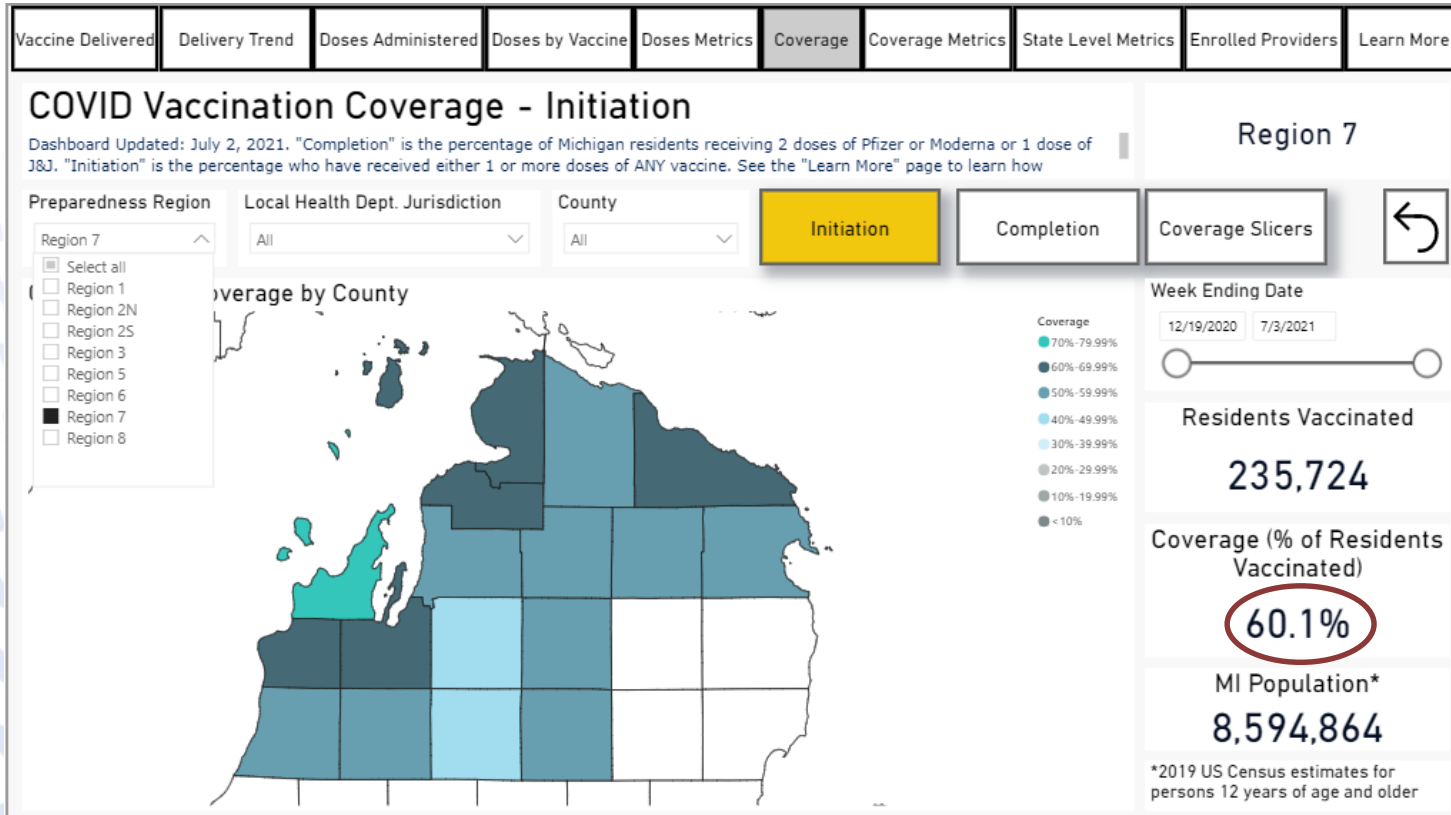

MUNSON HEALTHCARE

COVID-19 Vaccine Dashboard: Michigan

COVID-19 Vaccine Dashboard: Region 7

Delta variant (B.1.617.2)

- Currently estimated to be 20% of new US cases
- Has grown to be 90% of new cases in the UK
- Multiple mutations
- B.117 (alpha) variant 50% more transmissible than wild type
- B1617 (delta) variant 40-60% more transmissible than alpha
- Data preliminary, but compared to alpha, delta is more likely to cause hospitalization
- Vaccine efficacy slightly reduced but still good (i.e. 1-6% reduction)
- Munson Healthcare's Infectious Disease Pharmacists are monitoring the prevalence of the variants by watching the state data.

COVID-19 Infusion Treatment

for Patients with Mild to Moderate Symptoms

Munson Healthcare is offering monoclonal antibody therapy for treating patients 12 years and older with mild or moderate COVID-19 symptoms. This one-time outpatient infusion therapy may help patients recover quicker and avoid hospitalization.

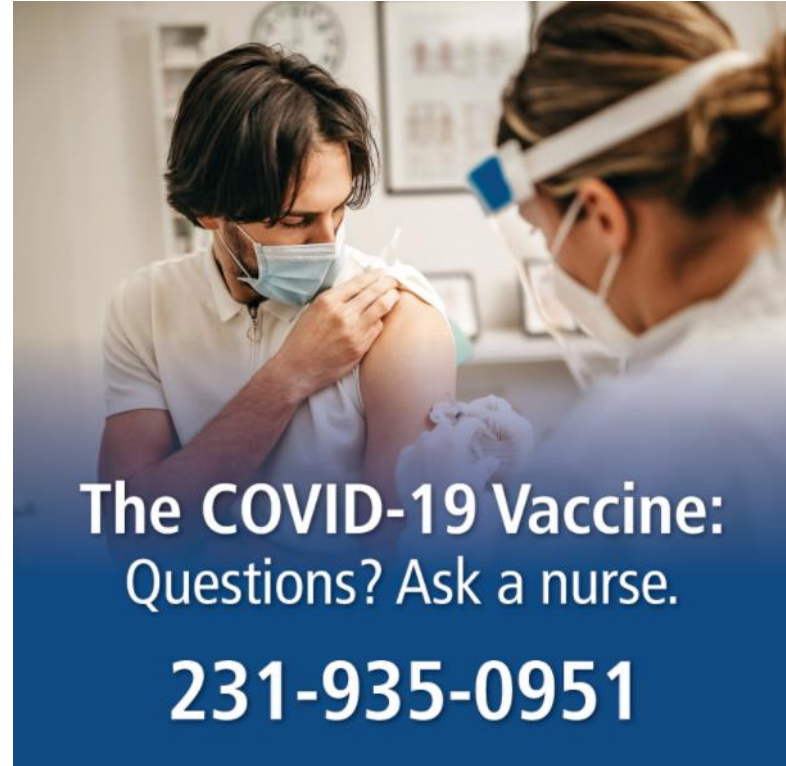

- Monoclonal antibody therapy is available at Munson Healthcare locations in Traverse City, Kalkaska, Grayling, and Cadillac. Home treatment may be available.
- This treatment is especially useful for patients with conditions that put them at higher risk of developing a more severe form of the disease.
- Therapy must be administered within 10 days of the onset of symptoms.

Call your primary care provider or Munson Healthcare Ask-A-Nurse at 231-935-0951 to discuss your symptoms.

It's OK to Have Questions!

- Your primary care doctor knows you best.
- Talk to your primary care doctor if you have questions about the COVID-19 vaccine.
- Munson Healthcare also offers an Ask a nurse line.

Health Department Updates

Grand Traverse County Health Department

Wendy Hirschenberger, M.P.H.
Health Officer

Unvaccinated? - think about testing after the holiday and festival

- If you are unvaccinated and participated in group activities during the holiday week, think about getting tested!
- With thousands of visitors coming to the region to participate in the holiday weekend and festival, there is potential to contract COVID-19 if you have not been vaccinated.
- If you are not vaccinated, MDHHS recommends wearing a mask, even outside in crowded spaces. Protect yourself and others that can't get vaccinated.

COVID-19 testing at GTCHD main campus - free, rapid

- Testing is drive-up and will be done in the parking lot behind the main building
- Location: 2600 LaFranier Rd. Traverse City, MI, 49686
- Hours: Monday and Wednesday from 9 a.m. - 12:00 p.m. and 1 - 4:00 p.m.
- Results will be delivered electronically (email/text) within two hours.

Student-athlete vaccination timeline

- If you have a student-athlete that is playing fall sports, think about starting the vaccination process now, so they are fully vaccinated before summer practices and the season starts.
- If they get their first dose this week, they will be fully vaccinated by the week of August 16th.

Vaccinations at National Cherry Festival

Date: Tuesday, July 6

Time: 11 a.m. - 3:00 p.m.

Date: Wednesday, July 7

Time: 11 a.m. - 3:00 p.m.
